

Existing Site Camera Locations

The purple numbered circles indicate the locations of the existing camera locations. The total number of existing camera locations where we expect a replacement camera installed is estimated at 75. The maps only represent 66, but the district location does not have a map provided and makes up the remaining amounts. It is the newest building

Arroyo High School – 9 Existing Camera Locations (36 Total Locations Required)

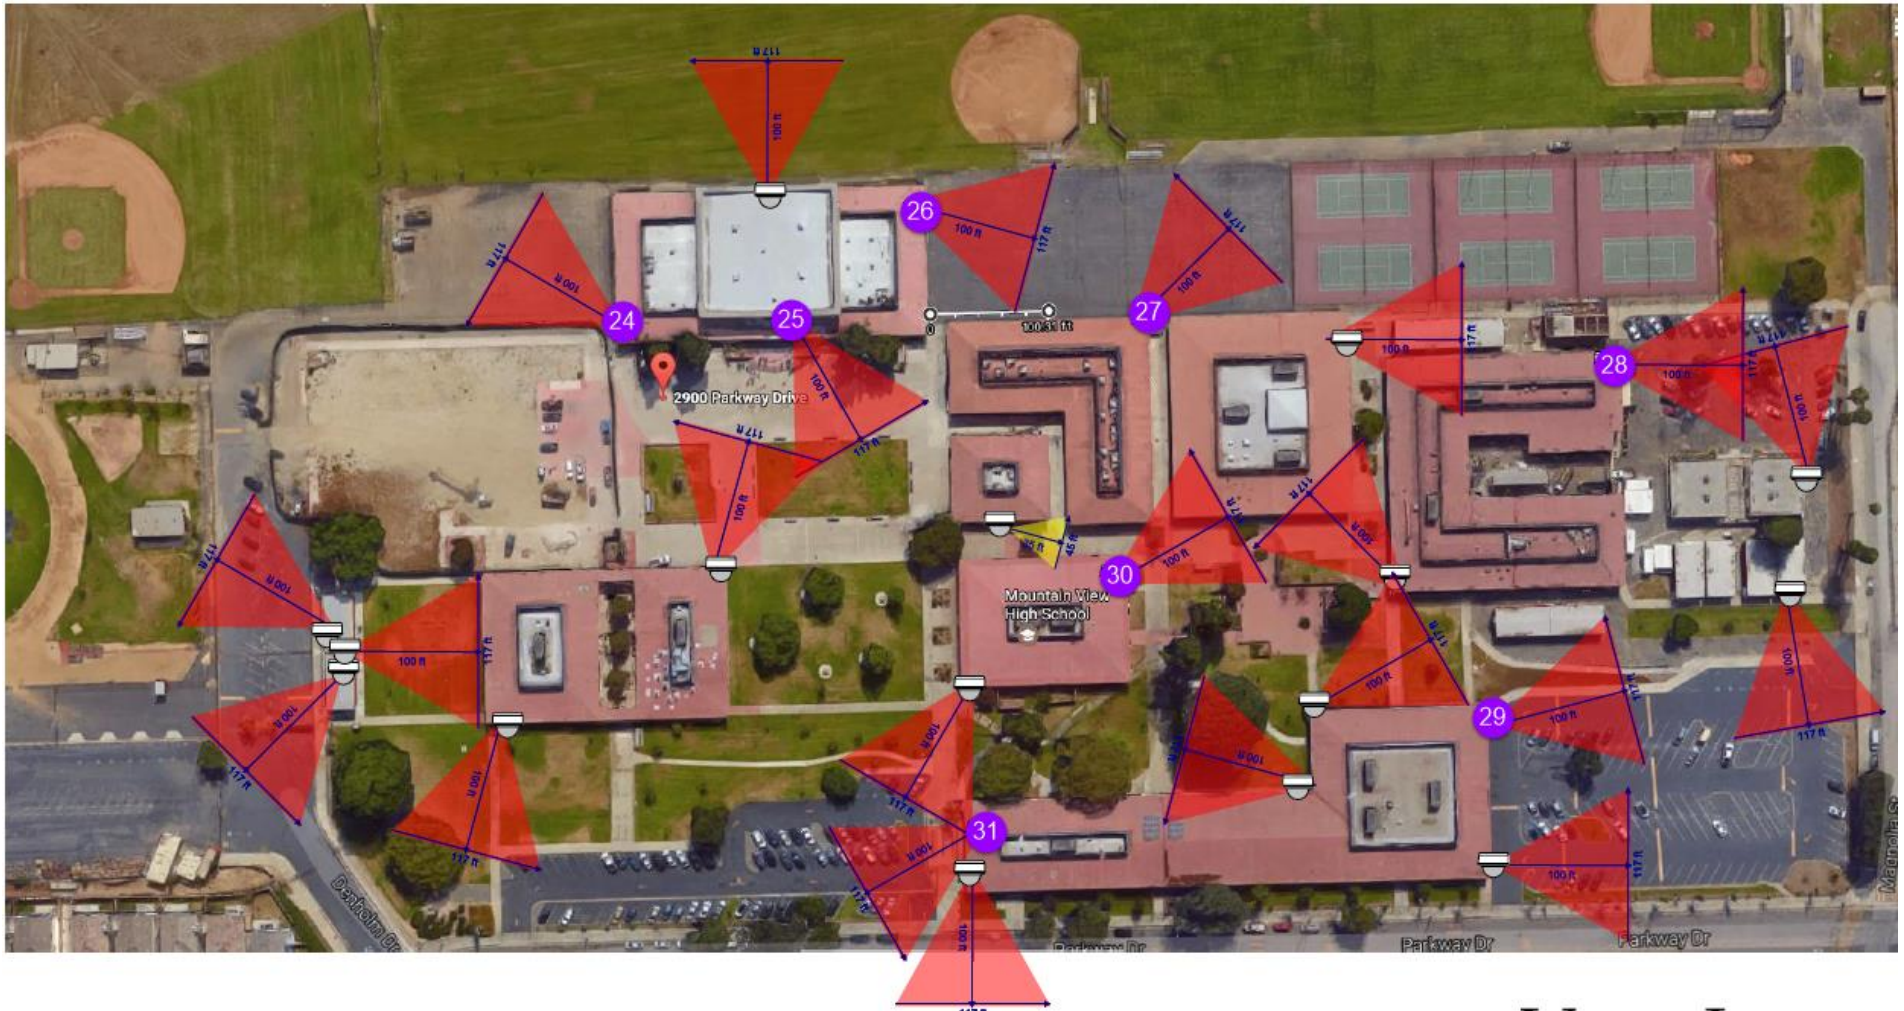

El Monte High School – 12 Existing Camera Locations (32 Total Locations Required)

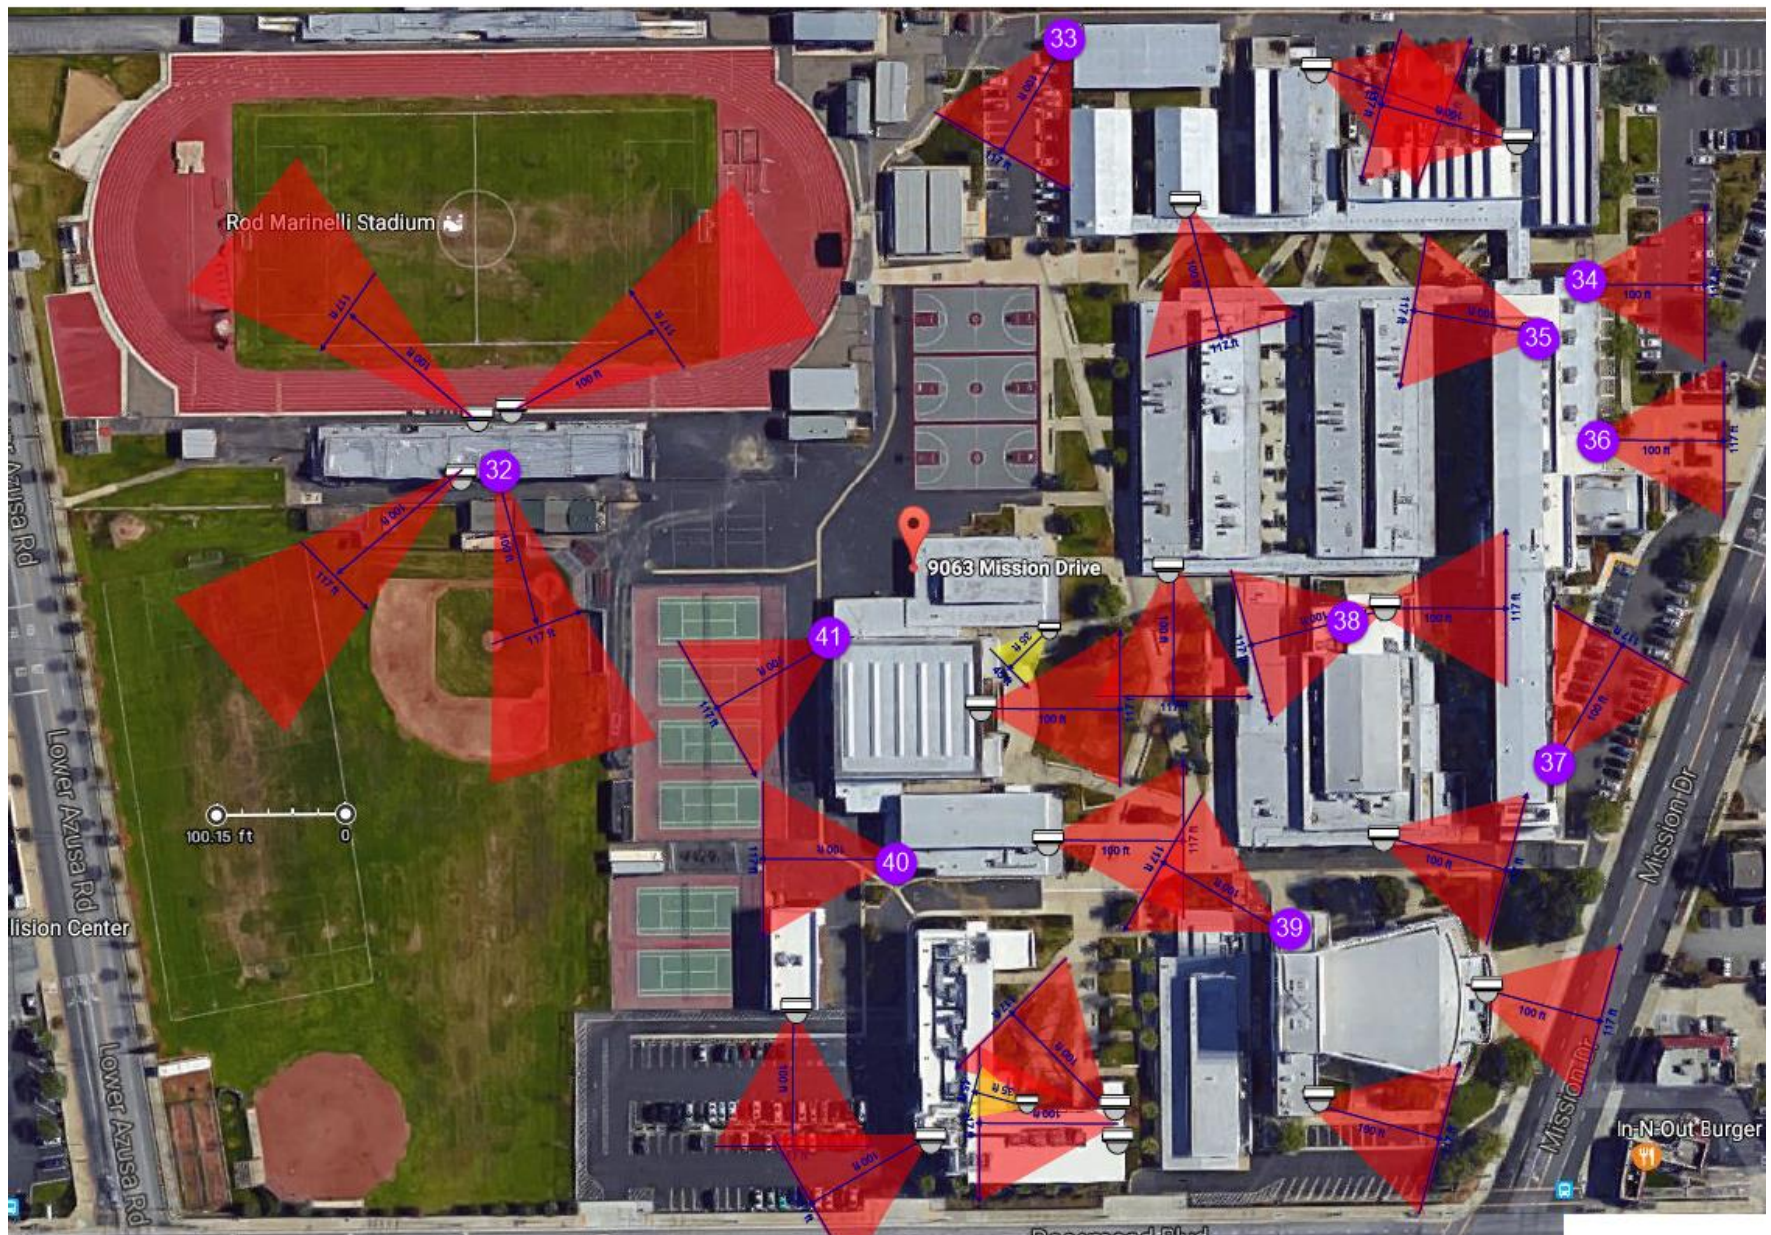

Fernando Ledesma High School – 2 Existing Camera Locations (15 Total Locations Required)

Mountain View High School – 8 Existing Camera Locations (24 Total Locations Required)

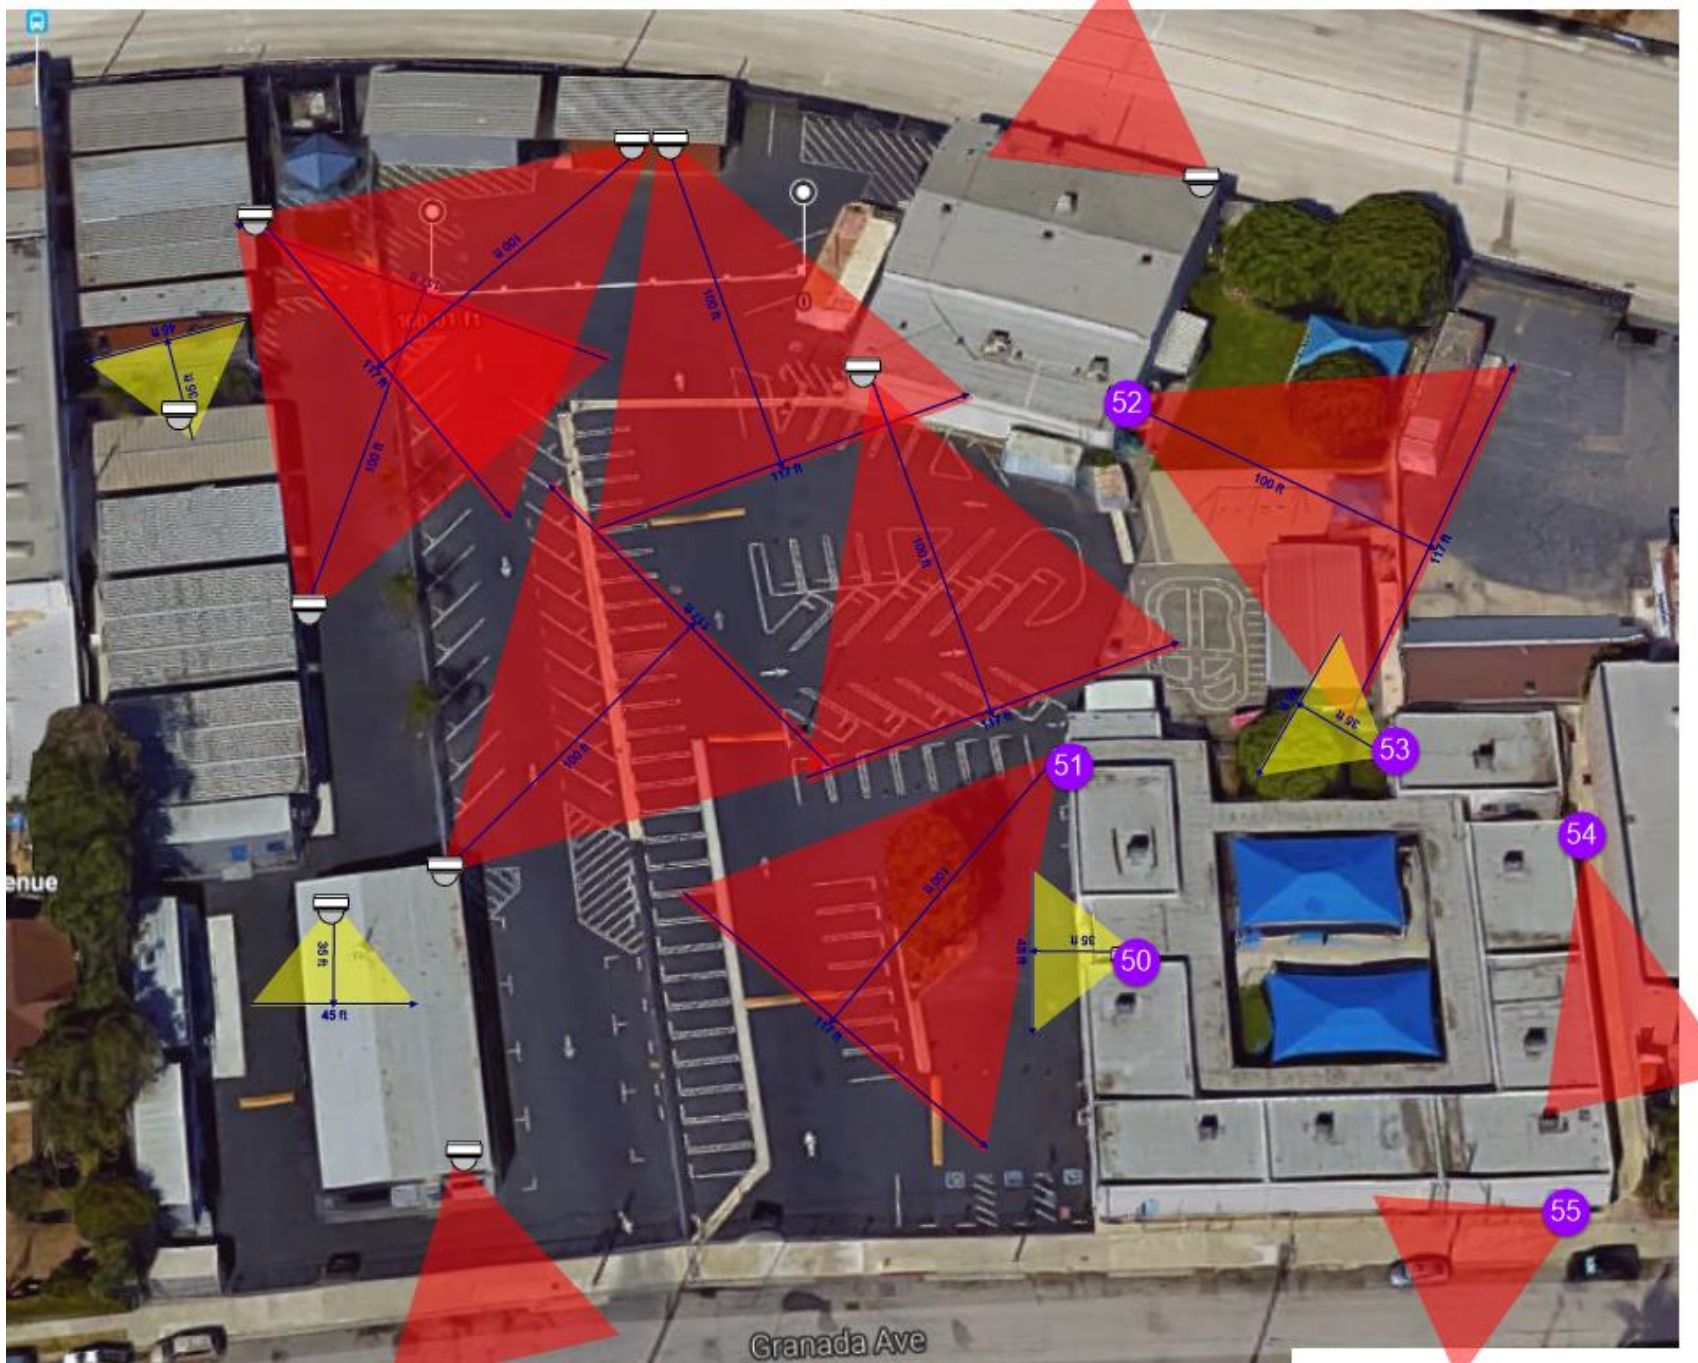

Rosemead High School – 10 Existing Camera Locations (29 Total Locations Required)

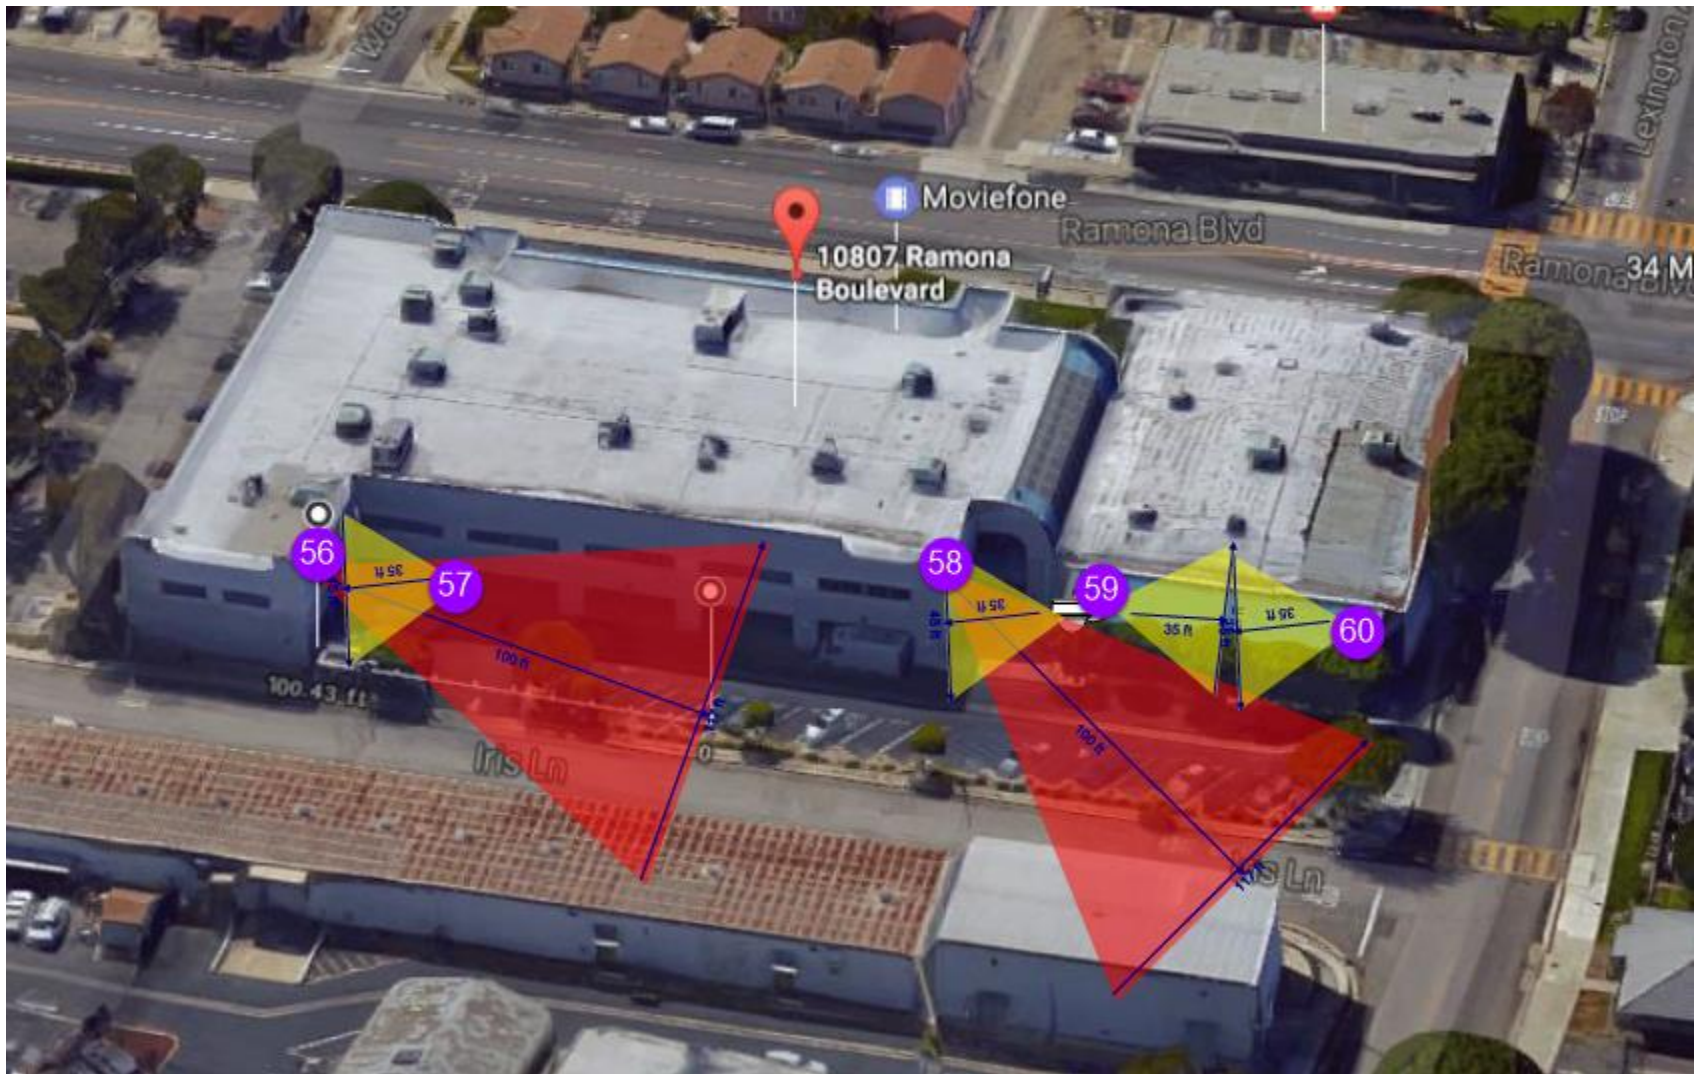

South El Monte High School – 8 Existing Camera Locations (27 Total Locations Required)

Granada Transition Center – 8 Existing Camera Locations (16 Total Locations Required)

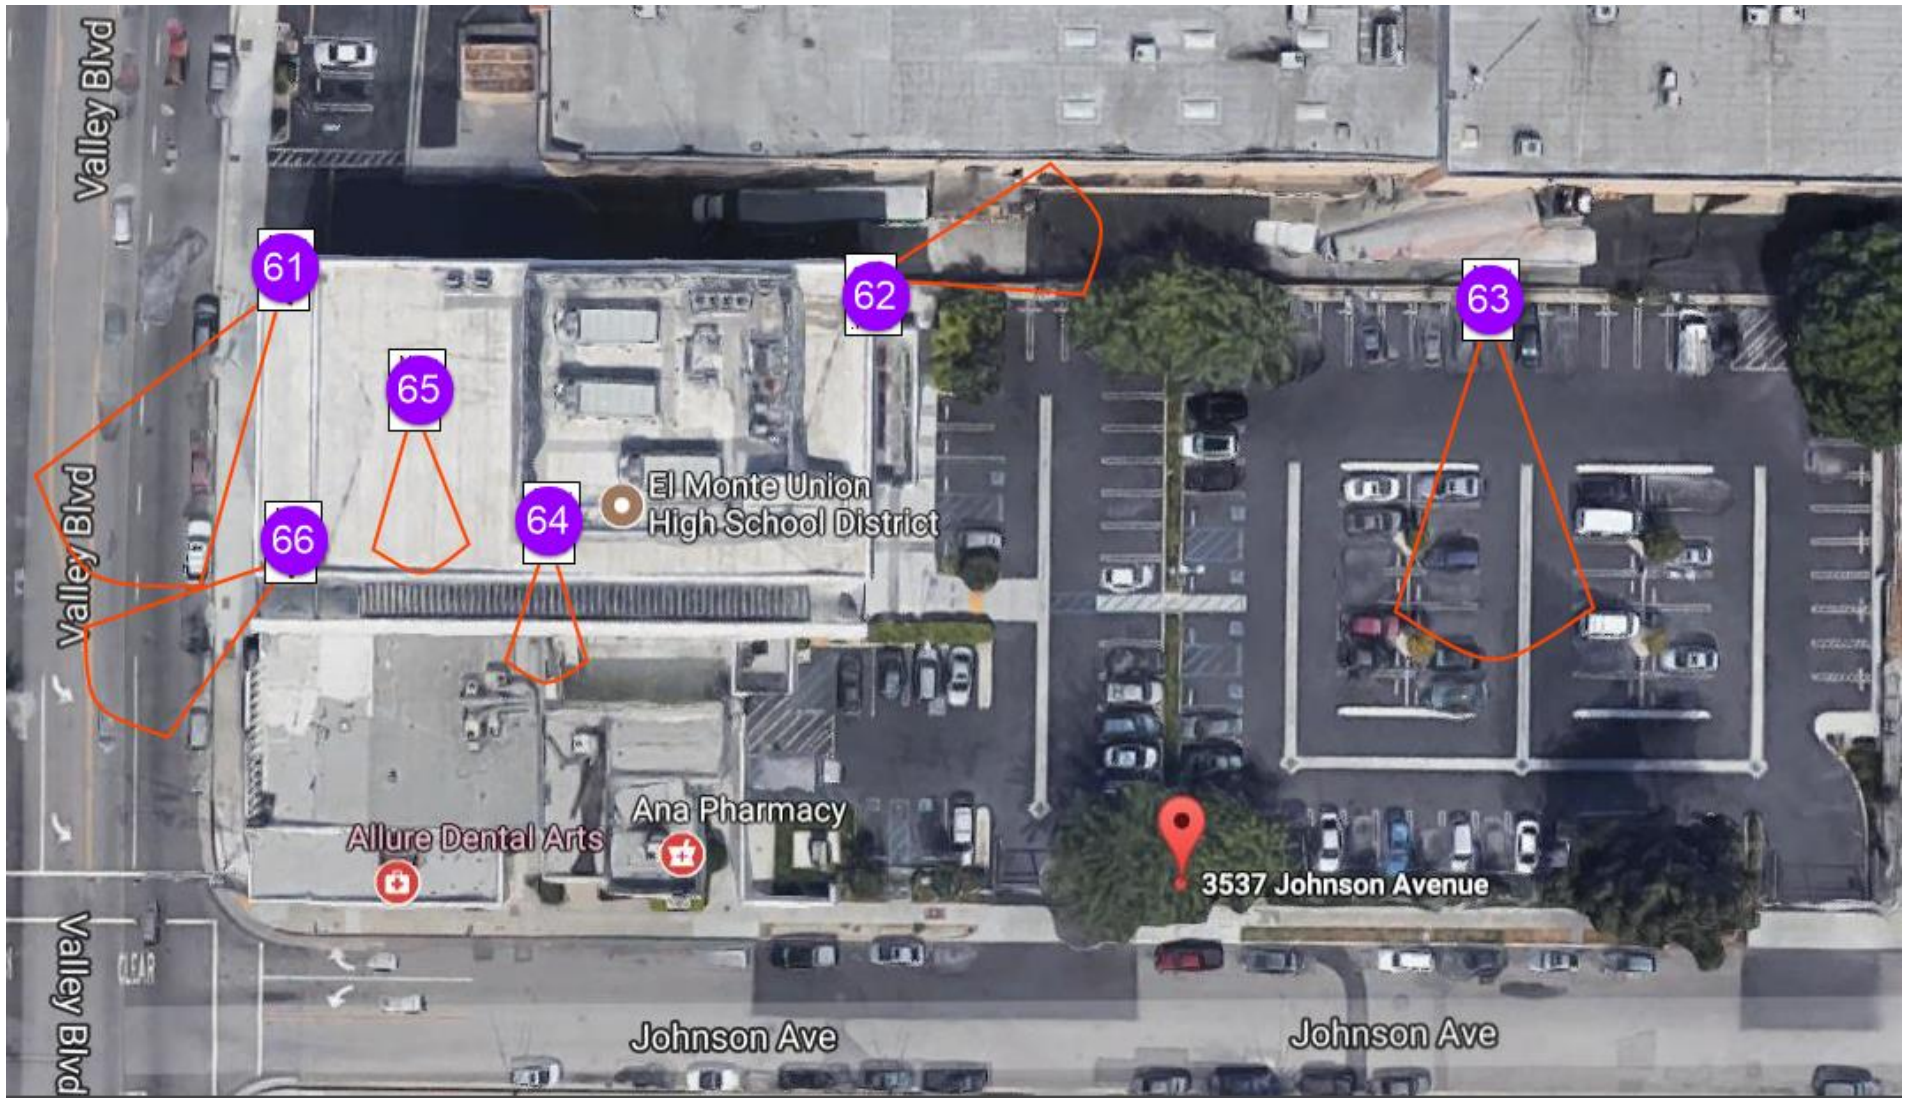

El Monte Rosemead Adult School – 5 Existing Camera Locations (6 Total Locations Required)

District Office – 6 Existing Camera Locations (6 Total Locations Required)

All existing camera locations, 6 are internal to the building within the district's board room.

District Office - Facilities Location on South El Monte Campus

2 Existing Camera Locations (9 Total Locations Required)

The camera locations on the left hand side reflect two new buildings that were just completed. All drops listed in image have existing new conduit with pull boxes but only the two have network drops pulled to their location, which may not need to be replaced.
